This program has made a huge impact on our church and its membership. One year after offering the course to our partners, the church's tithes and offerings (by program participants) increased by more than 30%. We look forward to continuing to offer this program to our partners.

This course has been truly enlightening. In the past, I always felt like I was chasing my tail, but this course has allowed me to grow financially. There is a sense of direction. Hopefully, now I can help guide my family and give them sensible and sound advice financially. And if I don't know the answer, I do know someone that does! Thank God for the course given by Ozeme Bonnette!

I think these workshops are very beneficial. I think a lot of the younger kids should come out and listen and participate in these workshops. I did not grow up learning about finances. I have just become aware or rather knowledgeable about finances in my 40's. Although I have always wondered how people use their money, I believe this is my season. I thank God for this opportunity and for Ozeme. She has helped tremendously. I will keep in contact with her until she quits. Thank you for the vision.

The entire series has been a tremendous blessing to our family and friends. We have shared information. Wisdom is knowledge! How dynamic! Keep up this ministry. If only we had this information so clearly explained in my early life, I would be in a different situation in my lifestyle. God bless!

Although financing is not my cup of tea, you made it a pleasure to be in your class. You brought a wonderful spirit and heart to financing. You were well informed and rehearsed. Thank you for all you poured into us. You taught me a task only the brave and anointed could handle.

This year, I told God that I would be open to what He would want me to do. Even though I have been blessed with good credit, I felt that I needed to take the classes, and the Holy Spirit convicted me to follow instructions. After the first class, I was able to pay off a loan. After the second class, I was blessed with an opportunity that enabled me to supplement my income, since I was only working part-time. After the third class, I was able to get a second part-time job. The income has been a blessing to me and I am enjoying the work. I am believing God to come out of debt in less than a year's time and turn my debt into surplus to bless others.
